1. average of annual IC waste	turned in on 5/11/12 to Kerry Tyson - doesn't have a copy.	200 lbs per week	no chemotherapy waste varies - avg about 1,400 lbs per month	18,000 lbs.	300 lbs in 4 wks was the last pickup, Avgs about 400 lbs/mnth	1900 lbs last month (avg is about 1500 x 12 = 18,000 / yr)	just infectious waste - 3000 cu ft annually (avg)
2. does your definition of IC waste include all "red bag" waste?	red bag is considered infectious	yes	yes	yes	yes	yes	yes
If not, define IC waste							
3. manage waste							
on site treatment?	on-site w/ Stericycle						
outside contractor?	Stericycle processes in sanipak system first for red bag infectious and Veolia handles chemo waste	Veolia Environmental Svcs	Waste is bagged and picked up once a week	yes. Waste is boxed and picked up every other week for removal.	outside - Veolia	Outside contractor - Stericycle	Outside contractor - Stericycle
4. - Is all the IC waste you reported generated at your facility?	yes	all generated by Blair Medical (in the same complex)	yes	no	yes	yes (all locations on their campus)	yes

	Altoona Regional Health Systems	Blair Medical Associates	HealthSouth Rehabilitation - Hospital of Altoona	James E. Van Zandt Va Medical Center	Mainline Medical Associates.	Nason Hospital	Tyrone Hospital
- Do you accept waste from another facility in your health care system?	no	no	no	no. We are responsible for assuring waste from 3 outpatient clinics from other counties is removed, but it doesn't come here.	no	no from time to time, PennDot will call if they find a needle on the road	no
If yes, please describe.							
5. If your Institution uses an outside contractor, please provide name/address	Stericycle (sub) 380 Locust Street McKeesport PA 15132 Veolia Environmental Svcs 6330 Route 219 Brockway, PA	Veolia Environmental Svcs 6330 Route 219 Brockway, PA	Veolia Environmental Svcs 6330 Route 219 Brockway, PA	NEIE (contract holder) 3100 New Kent Highway Quanton VA 23141 Stericycle (sub) 380 Locust Street McKeesport PA 15132	Veolia Environmental Svcs 6330 Route 219 Brockway, PA	1 x per week on Thurs Stericycle 380 Locust Street McKeesport PA 15132	Stericycle 380 Locust Street McKeesport PA 15132
processing/disposal method							
6. Is the management of IC waste a problem? Are your treatment/disposal needs adequately met?	no looking at transitioning from the sanipak system but everything is good	has not been to this point yes	no problem yes	our disposal needs are being met.	no yes	no yes - currently	no yes
7. anticipate changes in the amount of IC waste generated at your facility next year? Or next 5-10 years?	always trying to decrease it as they become aware of things that shouldn't be in there	he does not anticipate anything like this	no	very little change. Our OB has been reduced to a procedure dept. and behavioral health is the big focus.	no There's a possibility that it would go away	a change may be a decrease in lbs	hard to say - it's flexible
8. additional info that impact your disposal needs, either current or future:		not at this point	no	the only thing that might impact our disposal needs is more regulation. As I mentioned actions being taken at the facility are not increasing IC waste now or the near future.	no	no	no
9. Completion of Survey best time to contact you:	Jim moving from TN and not available. 8/6/12 L/M 8/7/12 L/M 8/8/12 L/M	8/7/12 noon	8/6/2012	M-F 8:00AM - 4:30PM	8/6/12 and 8/7/12	8/6/2012	8/7/12 - 12:30 PM
